

## DRAFTING A WILL

As we take more time to reflect in these uncertain times, we come to realise the importance of protecting our families and loved ones. Drafting a will is a prudent method of removing future doubts and uncertainties. Having a Will allows a person to:

- Distribute their assets and make specific gifts according to their personal wishes rather than having their assets distributed according to the laws of intestacy.
- Avoid unnecessary disputes arising among family members.
- Appoint a suitable person(s) to administer their estate
- Appoint guardian(s) for their minor children
- Save time and legal costs

Our solicitors would be happy to discuss the process for drafting a Will in further detail.
